DELINQUENTS.

We have several thousand dollars due us in sums ranging up from one dollar to twenty. We have not the time to spare traveling about dunning our delinquents, and as a matter of Business Necessity, have placed a number of accounts in the hands of A. COLLECTOR, whose special business is to collect accounts.

We hope none of our old time delinquents will get mad when they let a Dun. If they do we will get mad too because we hadn't made them mad long ago, so that by now they would be over the post.

But we want the money we have honestly earned and are justly entitled to. Those who are able and honest will pay us.

WEALTH AND HOW TO ATTAIN IT

100,000 SHARES OF STOCK OFFERED AT 50c ON THE DOLLAR.

For the purpose of further developing their holding the Company has decided to place One Hundred Thousand shares of stock—par value one dollar—at fifty cents a share. There is no oil proposition before the people to-day that offers such rich returns—with absolute safety of investment.

6 Per Cent Guaranteed for 8 Years

The first one hundred thousand shares, besides being non-assessable, are guaranteed to pay six per cent interest annually for eight years. Every single share of the first one Hundred Thousand and will bear the endorsement of The Continental Building and Loan Association of San Francisco, a trust company incorporated under the laws of California, for Twenty Millions of Dollars, guaranteeing that The Central Pacific Oil Company will pay a dividend of 6 per cent. per annum for 8 years.

Read What The Chicago Western Trade Journal of July 2, Has to Say Editorially:

"Greater fortunes have been made out of oil than any other product Mother Earth has yet given us. Rockefeller could not have acquired his hundreds of millions in a few years through any other source, nor the Standard Oil Company have paid dividends making hundreds and thousands of millionaires out of men who started with but the clothes they work. California is about to take the lead among its sister states in the production of this great treasure. Such persons as Henry Crocker, Claus Spreckles, Mrs. Phoebe Hearst and other multi-millionaires, and putting thousands into the newly discovered oil fields.

Wise ones who get in at the start are sure to make fortunes.

This being the situation, the question naturally arises, how and where an investment in oil development stocks should be made. Common justice to our readers requires that we should advise them to a reliable company, whose stock are offered on a basis which ensures safety and speedy profits. Such a corporation is the Central Pacific Oil Company—611 to 617 Laughlin building, Los Angeles, California—which represents the biggest oil proposition before the world today—including, as it does, the consolidation of the cream of the Kern rivers, Bakersfield, Ventura, Sunset, McKittrick, Tehachapi, Kramer, Newhall, Los Angeles and Fullerton fields. Each share of this stock will have attached the guarantee of the Continental Building and Loan Association of San Francisco—with a subscribed Capital Stock of Twelve Millions of dollars—that the Central Pacific Company will pay 6 per cent interest for eight years."—Western Trade Journal.

The following is from an article which appeared in the Los Angeles Herald of June 2:

"A large number of land holders have just succeeded in consolidating some of the best oil lands in Southern California, and have incorporated the Central Pacific Oil Company—Capitalized for Five Millions of Dollars. Two million have been expended in securing proven oil lands. Three million shares have been set aside as treasury stock, which will be used for developing the properties of the monster company. The gilt edge part of the great enterprise is in the fact that all the purchasers of the first One Hundred Thousand Shares will have the right to surrender the same to the company at the end of one year and receive in cash the full amount paid for stock, with interest of 6 per cent—less any dividends that may have been paid on said stock."—Los Angeles Herald.

If you want some of the First One Hundred Thousand Shares of Stock, send your orders to the Secretary of the Company, A. Samuel Parks or through Wells, Fargo and Co. Express, or to the Broadway Bank and Trust Co., our Los Angeles depository—or direct to

THE WORK OF WOMEN

EXTENSIVE EXHIBITS TO BE MADE AT THE EXPOSITION.

Achievements of Women Will Be Shown Side by Side With Those of Men at the Pan-American-Handsome Building For Headquarters.

With a view to having the scope of the Pan-American Exposition as broad as possible and to interest the thousands of women in the American to be enterprise a Board of Women Managers was appointed, consisting of 25 representative women of Buffalo.

In addition to this the governors of the states and territories were asked to nominate two women each to act as honorary members of the Women's Board, these nominations to be ratified by the Board of Directors of the Exposition. The same request was made of the other Pan-American countries.

As a result of the request from the Exposition more than 30 states have honorary members of the Women's Board, and several Pan-American countries are also represented. The work of the honorary members supplements that of the local Board, which has been divided into committees and is now doing effective work for the Exposition.

A distinctive point in the plan of the Exposition is that the various industries conducted by women are to be represented by exhibits in the different buildings where they may properly be placed, so that the achievements of women will be shown side by side with those of men. This is the first Exposition in this country where such a plan has been followed and second, it is said, in the world. The same arrangement was followed most successfully at the Paris Exposition.

It is in co-operation with the various divisions of the Exposition and with the committees of the Men's Board of Directors that the Board of Women Managers of the Pan-American Exposition is, to a large extent, to work. The following committees have been appointed: Executive, Entertainments and Ceremonies, Fine Arts, Education, Clubs and Organizations, Publicity and Promotion and Applied Arts. The majority of the members of each committee belong to the Board of Women Managers, but in a few instances appointments have been made outside, taking in those especially adapted to carrying out the work of the Women's Board. To the committee on Entertainments and Ceremonies falls the pleasant task of looking after the social affairs of the Women's Board previous to and during the Pan-American Exposition, arranging
